CERAMIC-BASED PROTECTION

Our Ceramic based products are dedicated to protect bodywork and make up an important group of products in our range. Liquid quartz formula makes them very easy in application and hinders dirt settling on bodywork. WET WAX works very well as a drying aid. QUARTZ SPRAY is a quick detailer that provides great appearance and protection in short time and CERAMIC WAX giving a longer-lasting protection for more time consuming application. The most durable product in this group is QUARTZ COAT - a classic ceramic coating combining extra gloss with astonishing paint protection for demanding users. We also have QUARTZ RELOADER - an innovative quartz-ceramic cream, which makes the surface slippery, strongly hydrophobic and protects all kinds of ceramic coatings.
