

SKORPIO III PONCEUSE ORBITALE A MAIN ARELIER CENTRALE ASPIRANTE Ø 150MM VELCRO O

RH356A

Available as non-vacuum (RH356), central vacuum (RH356A) or self-generated vacuum (RH356T) models, the 6mm Skorpio III pneumatic dual-action palm sander provides a perfect balance between fast material removal, user comfort, and control. It is RUPES' most popular dual-action palm sander.

All Skorpio III sanders feature engineered motors designed to maximize torque, even with low or inconsistent airflow.

Maximum results are delivered by technicians who have precise control of their tool. The RH356, RH356A, and RH356T Skorpio III Dual-Action Palm Sanders are engineered to be extremely smooth and quiet in operation, and the lightweight ergonomic design makes their operation effortless.

THE RUPES SKORPIO III DUAL-ACTION FINE SANDER MODELS HAVE AN ADVANCED MOTOR DESIGNED TO MAXIMIZE TORQUE, EVEN WHEN FACED WITH REDUCED OR INCONSISTENT AIRFLOW, FOR CONSISTENT RESULTS. THE SKORPIO III ALSO FEATURES A RUPES DESIGNED BACKING PLATE, PRECISION BEARINGS, AND HIGH-QUALITY COMPONENTRY FOR LONG TOOL LIFE IN HIGH-STRESS ENVIRONMENTS.

The 6mm Skoprio III can be used for any dual-action sanding operation, from preparing body filler to final sanding of clear coat paints. The 6mm orbit is a great balance between comfort, control, and efficiency. Available in standard, non-vacuum (RH356), vacuum (RH356A), or self-generated vacuum (RH356T).

DONNÉES TECHNIQUES

Ø Orbite	mm	6
